

23 September 2021

RECKITT (RKT.L)

LAUNCH OF INVESTOR SEMINAR SERIES, AND TRADING UPDATE

Reckitt will today host the first of a series of 'bite size' Investor Seminars which have been designed to provide greater depth and understanding of the progress Reckitt is making in its transformation journey to deliver sustainable growth. The event will include presentations from leaders of Reckitt's three Global Business Units, as well as presentations on R&D and eCommerce.

The event will begin at 2:00pm UK time and will be live-streamed via: www.reckitt.com/investors/investor-news/¹.

Trading update

Trading since the half year results on 27 July has been in line with management expectations.

We continue to be confident in delivering FY 2021 like-for-like net revenue growth of 0-2% and adjusted operating profit margins of between 22.7-23.2%. The disposal of IFCN China was completed on 9 September and, as previously stated, our guidance excludes the contribution of this business for the entirety of the year.

Reckitt will report Q3 results on 26 October 2021.
