

GENDER PAY GAP REPORTING 2024

Global market methodology

Global Methodology

Required Calculations	<p>The following are required for Overall Country in each country :</p> <ol style="list-style-type: none"> 1. Number of men and women 2. Mean/average hourly salary by gender 3. Mean/average gender pay gap (expressed as percentage) – calculated as: <i>(male mean hourly pay minus female mean hourly pay), divided by men mean hourly pay</i> 4. Median hourly salary by gender 5. Median gender pay gap (expressed as percentage) – calculated as <i>(men median hourly pay minus women median hourly pay), divided by men median hourly pay</i> 6. Mean/average target bonus by gender 7. Mean/average target bonus gender pay gap (expressed as percentage) – calculated as <i>(men mean bonus minus women mean bonus), divided by men mean bonus</i> 8. Median target bonus gender pay gap (expressed as percentage) – calculated as <i>(men median bonus minus women median bonus), divided by men median bonus</i> 9. Proportion of men and women eligible to a bonus payment – calculated as men/women eligible to bonus divided by total males/females 10. Proportion of men and women in each quartile pay band – determined by ranking all employees highest to lowest paid based on hourly rate. Pay rate is divided to quartiles and proportion of men and women reported by quartile
Report Grouping	<ul style="list-style-type: none"> • Total Country per country
Salary/Allowances Components	<ul style="list-style-type: none"> • Taken as a snapshot from payroll reports* • Consider all individuals in myRB at that moment. Those on leave of absence are included if they are fully paid. • Data pulled from payroll reports to include; <ul style="list-style-type: none"> Basic pay, cash allowances paid through payroll (including car allowance), pay according to local legislation • Exclude redundancy/termination • Salary expressed as hourly rate based on full time salary + allowances • Exclude retirement/pension contributions
Bonus	<ul style="list-style-type: none"> • Use target data stored in myRB • Include: annual bonus (APP), Sales Incentive Plan, and any other local bonus practices • Report in gross • Reckitt to report on only those eligible for bonuses – meaning any employee with a target bonus logged in myRB
LTI	<ul style="list-style-type: none"> • LTIs are logged as number of shares and options employees are granted per band. For the purpose of reporting as part of bonus, a target value at grant is assigned. The target value illustrates the value of most recent grant assuming 50% vesting and using Black-Scholes to value options at 10% share price growth. Share price 62.00 GBP. • The GBP value is then converted to local currency using March Closing spot FX rate provided by Group Treasury, which is the basis for all of our FX information for financial reporting across the business.
Currency	<ul style="list-style-type: none"> • Each country to be reported consistently in their local currency: closing FX rate of previous month to 5 April 2024 applied, using same FX approach as above.

*Actual pay data has been used in the pay gap calculations, using payroll reports provided for the month in which the 5 April 2024 snapshot date falls (April 2024)

Considerations

Allowances per local legislation differ between regions – breakdown of allowances included in the calculations are outlined in appendix A.

For ordinary pay data, 'actual' payroll data has been used for all non-UK market however certain additional information such as Gender, working hours and service dates have been captured by myRB (internal HRIS).

The breakdown of working hours used is included in appendix C. In factory site in Hungary and for hourly paid employees in the USA, and Brazil, actual hours from payroll reports were used.

For bonus data, target bonus percentage and/or amounts have been extracted from myRB. Where a percentage is provided from the system this has been applied to an annualised payroll salary.

MyRB data with snapshot date 5th April 2024 was extracted from the system in July 2024. Where there have been any pay increases processed through the system and back-dated to snapshot date 5th April 2024, the updated backdated increase has been used in the calculation.

Appendix A

Allowances included in pay per region in line with local legislation	
USA	Base salary; Car Allowance
China	Base salary, Housing Allowance; Lump Sum; Position Allowance; Degree/Skills Allowance; Transportation Allowance; Relocation Allowance; Special Allowance
India	Base Salary*, Consolidated Allowance; House Rent Allowance; Special Allowance; Provident Fund; Gratuity; Medical Allowance; Transport Allowance; Special Pay; NPS; Superannuation; Conveyance Allowance; Fixed Dearness Allowance; Washing Allowance; New Line Allowance; Service Weightage Allowance. <i>*In one factory, base salary is made up of basic pay, fixed dearness allowance, service weightage and variable dearness allowance.</i>
Mexico	Base Salary
